CAREER OBJECTIVE

Full-stack developer and prompt engineer with hands-on experience in Java, Python, React.js, and AI-driven solutions. Passionate about building intelligent, user-focused applications through end-to-end development, cloud deployment, and continuous learning.

WORK EXPERIENCE

AI Intern • Infosys • Virtual

Nov 2025 – Feb 2026

- Applied LLMs to generate professional content (LinkedIn posts, emails, advertisements) using structured prompt logic.
- Integrated an LLM API with a Streamlit interface; refined prompt structure and system flow iteratively.

Front-End Development Intern • Alphawizz Technologies Pvt. Ltd. • Indore

Jun 2025 – Aug 2025

- Built responsive frontend pages using React, HTML, CSS, and JavaScript with reusable component architecture.
- Integrated REST APIs, managed application state in React, and maintained version control using Git.

PROJECTS

NutriScan – AI-Based Diet & Recipe Recommendation Website

Jan 2025 – Present

Stack: Spring Boot • Flask • PostgreSQL • Spoonacular API • Gemini API

- Built an image-recognition ML pipeline to identify food items and recommend personalised nutrition plans.
- Developed 'NutriBuddy,' a Gemini LLM-powered chatbot integrated with Spring Boot for auth and dietary preference management.

Web-Based Order Management System

Jan 2026 – May 2026

Stack: Spring Boot • React.js • Neon PostgreSQL • Docker • Jenkins • JWT

- Developed a full-stack enterprise OMS for a fictional manufacturing client covering order, BOM, purchase, invoicing, and user management modules.
- Implemented CI/CD with Docker & Jenkins, deployed on Render (backend) and Vercel (frontend), following Agile Scrum methodology.

AI-Powered Content Generation Studio

Nov 2025 – Feb 2026

Stack: Streamlit • FastAPI • SQLite • SQLAlchemy • AWS Bedrock Nova • JWT • Render

- Built a full-stack AI content platform with multi-step generation workflow, JWT-based auth, email verification, and persistent content history.
- Integrated AWS Bedrock Nova API with custom prompt engineering to generate LinkedIn posts, emails, and ads; added AI-powered quality evaluation scoring.
- Deployed frontend on Streamlit Cloud and backend on Render; implemented dark/light theming, template system, and search/filter for saved drafts.

EDUCATION

B.Tech – Information Technology

2022 – 2026

Medi-Caps University, Indore

CGPA: 7.20 / 10

Senior Secondary (XII) – CBSE

2021

Vindhyachal Academy

Percentage: 82.70%

TRAININGS & CERTIFICATIONS

Enterprise Full-Stack Training (W-OMS01) • HCL EdTech

Jan 2026 – May 2026

18-week industry programme covering full-stack development (Spring Boot + React.js), cloud deployment, Docker/Jenkins CI/CD, JWT security, and Agile Scrum — centred on delivering a production-grade Order Management System.

Java Spring Framework 6 with Spring Boot 3 • Udemy

Feb 2025

Java J2SE & J2EE Certification • Infoviaan Technologies, Indore

Oct 2024 – Apr 2025

Smart UAS Bootcamp – AI/ML in Communication & Navigation • MeitY | IIT Indore

Mar 2024 – Jun 2024

C and C++ Certification • Infoviaan Technologies, Indore

Jul 2023 – Oct 2023

EXTRA-CURRICULAR ACTIVITIES

- Participated in ideathons and idea-pitching events, presenting team solutions under competitive time constraints.
- Active tabla and dholak musician; creates rhythmic mashups and solo compositions.
- Pursues photography and filmmaking through hands-on personal projects.
